

I am a K-LOVE listener and I understand you are considering a proposal to allow LPFM stations to take priority over current FM translators, such as used by K-LOVE to give them coverage over a broad area of the country, not to mention, coverage in the area in which we live. Without the translators, K-LOVE reception would be very limited. K-LOVE provides commercial free programming, including music and news suitable for the entire family, contrary to so much programming found on the airwaves today. Since they are commercial-free, K-LOVE provides a high percentage of music and news and wholesome commentary, which is a welcome relief to other stations in this area, some of which seem to have problems filling the time with anything uplifting and upbuilding. Please allow K-LOVE to continue using FM translators throughout this community and throughout the US. We have used their translator signals here and also picked them up when we travel, and enjoy this service. Thank you.
